MEDIUM

README documents port(s) not used by the application

Update `README.md` to reference the correct port(s): 208, 415, 505, 80.

LOW

No .env.example file found

Create a .env.example file documenting all required environment variables (with placeholder values, not real secrets).

INFO

README does not document how to run tests

Add test instructions (e.g., `npm test`) to your README.
